SKILLS

- Python & R Expert
- Gen-AI: Summary, Auto-Label, Auto-Define, Key Info Extraction
- Deep Learning — Pytorch & Transformers
- ML: XGBoost / GBM, GLM, SVM (pricing, fraud, churn)
- Big Data with Spark & PySpark
- Dataviz: Streamlit · Shiny

OTHER PROJECTS

- Kaggle: AXA Telematics, Otto, Quora Deduplication, West Nile Virus
- Hackathon Gen-AI @ COVEA “SAS→Python” (oct. 2024)
- Hackathon ACPR TechSprint Gen-AI (feb. 2024)
- Hackathon Model Winner @ COVEA “Churn” (2023)
- Hackathon @ APHP “ICU Night Treatment” (2018)
- Hackathon @ ARS-IdF “ER Admissions” (2019)
- Autonomous 4-wheel mini-car (Arduino)
- Space Invaders Map

Philéas CONDEMINÉ

Lead ML-Engineer NLP · Actuarial Data Scientist

2021–Now Lead ML-Engineer NLP @ COVEA: Hybrid AI & Gen-AI in production (Azure · OpenAI · Databricks).
2018–2021 Senior Data Scientist @ Ministry of Health: Health Sequences Transformers · CoViD-19 crisis center.
2014–2017 Actuarial Data Scientist @ AXA Global P&C: ML-driven pricing, claims handling, external data.

Experience

Lead ML-Engineer NLP

2021–Now

COVEA — AI Delivery · Paris, France
• VOX.IA: Client Verbatim Analysis · AI Award-Winning Project (Cas d’Or du Digital 2023).
• NetMessages: Real-time selfcare offer with Frugal AI.
• JudiCible: Claim Management acceleration with AI & Gen-AI.
• AI in Production: Annotation · Finetuning · Deployment · Drift-Monitoring. Publications on Medium COV&IA.

Senior Data Scientist & EIG

2018–2021

Ministry of Health · Paris, France
• Health Sequences Modelling to predict disease outcomes (Transformers).
• Active-learning classification & public WebApp for health statistics.
• Interactive Zoning Tool for regional health agencies.
• Tech Lead at CoViD-19 crisis center: webapps for hospitals & labs.
• Open-data production with k-anonymity & hierarchical l-diversity.

Actuarial Data Scientist

2014–2017

AXA Global P&C · Paris, France
• P&C pricing innovation with gradient boosting & XAI interpretation.
• Claim Cost Analyzer: ML workflow scoring car repairers cost-efficiency.
• NLP on bodily injury cases to assess contentious risk.
• Road own-risk assessment from GPS Telematics data.

Actuarial Thesis

2014

Structuration Intern (6 mo.)

2013

AXA Belgium · Remote Elderly drivers own-risk assessment — SCOR prize finalist.

Exane BNP Paribas · Paris Synthetic index as a dynamic basket of stocks & bonds.

CAT-Bonds Pricing Intern (6 mo.)

2012

SCOR · Paris, France Pricing CAT-Bonds using Monte-Carlo Markov Chains (MCMC).

Education & Training

ENSAE Paris — IP Paris

2010–2014

MSc Actuarial Science & Data Science · Paris, France

Generative AI

2023–2024

Deep Learning

2017–2020

Spark & Scala

2019

deeplearning.ai LLM, RAG, Finetuning, Prompt-engineering.

fast.ai · datascientest · deeplearning.ai Advanced training & projects.

Coursera Martin Odersky & Heather Miller.

Teaching

Gen-AI Masterclass

2023–2025

COVEA (internal) Gen-AI theory & practice, Azure OpenAI scaling, Prompt-engineering.
Data Science Teacher

2014–2020

AXA / ENSAE CEPE · Paris, France

- NLP & Text-mining techniques.
- Machine Learning for structured data.
- Data Science for Actuaries (DS4A): 5-day training + hackathon with Arthur Charpentier.
